WARREN RESIDENTS WIN PRESTIGIOUS SEEDS OF HOPE AWARD

The Valerie Fund founders Sue and Ed Goldstein are recipients of annual volunteerism award created by New Jersey Monthly.

Pair's long time support of children with cancer and blood disorders earns state's top volunteer distinction. Profiles of 2013 Seeds of Hope award winners featured in the magazine's September 2013 issue on sale now.

The prestigious Seeds of Hope awards were created a decade ago by New Jersey Monthly to publically recognize the accomplishments of the state's citizens who are making a difference. Nominations of New Jersey residents working with New Jersey-based community organizations or local chapters of national organizations were submitted earlier this year and five were selected by a distinguished panel of judges to receive top honors.

After their nine year old daughter Valerie succumbed to cancer, the Goldsteins were determined that no family should have to travel great distances to receive life-saving medical care. Along with a group of close friends, they began fundraising efforts from their living room---tireless work that would lead to the 1977 opening of New Jersey's first pediatric oncology facility at Summit's Overlook Hospital .

The Goldsteins also pioneered the concept of treating and healing the whole child and family. Although not yet recognized by the medical community, they intuitively understood that providing comprehensive health care---integrating medical care and social services would help families navigate the painful journey from diagnosis to treatment and beyond.

Today there are seven, not-for-profit Valerie Fund Centers located in New Jersey, New York and metropolitan Philadelphia staffed with social workers, counselors, psychologists and child life specialists. The hallmark of The Valerie Fund services ensures that families and

hospitals do not have to rely on insurance reimbursements to receive the range of support of a multi-disciplinary team. More than 4,000 children with cancer and blood disorders are treated annually---a network that is one of the largest of its kind in the country.

The Seeds of Hope awards will be presented on October 9th during a luncheon at Livingston's Crystal Plaza, cosponsor of the event along with PNC Wealth Management. Former Governor James McGreevey has been invited as the event's guest speaker.

To learn more about the Goldstein's work and their impact on the community, please contact Bunny Flanders, Director of Marketing and Communities at The Valerie Fund and visit www.thevaleriefund.org.

SENIORS GETTING BACK TO NATURE

On Thursday, September 12, 2013, Warrenbrook Senior Center held its Special Lunch and Learn Program: Making a Terrarium. Instructor – Master Gardener, Ellie Rich, from Master Gardeners of Somerset & Hunterdon Counties, Rutgers Cooperative Extension, demonstrated planting a terrarium, which is a mini ecosystem. While discussing its history, characteristics of containers, drainage and soil requirements and appropriate plants, each participant created their own indoor garden. Prior to the terrarium workshop, attendees enjoyed a delicious and healthy lunch for a suggested donation of \$2.00 or more.

NEWLY CHARTERED LITTLE LEAGUE RECRUITING FOR SPRING SEASON

The newly chartered Warren Little League is recruiting coaches and board members for its inaugural 2014 Spring Season. The Committee to charter Warren Little League is pleased to announce approval from Little League International to join NJ District 17. Little League is the only federally chartered youth sports organization in the United States, on par with the Boy Scouts of America. Warren Little League will hold public meetings to recruit board members, coaches, and players on Monday October 14th and Monday October 28th from 7:00pm till 8:00pm at the Warren Township Library, located at 42 Mountain Boulevard in Warren, NJ.

The meeting is open to anyone who is interested in getting involved with the Warren Little League, or any parent seeking information on which baseball league in Warren is the best fit for their sons/daughters. "I think the league will better serve Warren residents by offering a competitive playing style to compliment the instructional style of play offered by the Recreation League," says Parker Shannon,

Warren Little League President, "There is now something for everyone."

The Warren Little League is chartered with the intent of providing a competitive style of play, normally associated with travel baseball, but with exclusive focus on the 12 week spring season and travel limited to post season all-star tournament teams which compete in Districts, Regionals, and the Little League World Series (televised on ESPN). Warren Little League will offer divisions for Minors (9-11), and try out only divisions for Majors (10-12), Intermediate (11-13) on 50/70, and Senior League (13-16) on 60/90. "I disagree with the mindset that baseball is losing players to soccer and lacrosse", says Parker, "Travel baseball is a growth business in New Jersey, we are losing players because the local leagues aren't playing the same game as travel. I see a market opportunity to play travel style in a local league setting where watching the Warren Little League is a town event and not just a team event, as is often the case with travel."

Little League District 17 membership offers

the opportunity to construct a travel style inter league regular season schedule against Watchung, Green Brook, Somerset Hills, Tewksbury, Dunellen, Bound Brook, Middlesex, South Bound Brook, Piscataway, and Franklin Township. Little League District 17 Administrator, Robert Ball, says "As long as Warren Little League can field one team, we can put together a travel schedule against other District 17 teams and help Warren Little League get off the ground."

"I understand that no league can be perfect, says Parker Shannon, but the economics of running a league creates incentive to broaden the base by lowering the playing standards. Joining the Warren Little League in October will give all members an opportunity to participate in establishing our own set of local rules." Monthly meetings will be open to all members and all members in good standings will vote on rules; not just the Board of Directors.

Please contact Parker Shannon for questions or information at 732-500-3220 or parkershannon@me.com

RENNA MEDIA GROWS TO 11 MONTHLY PAPERS

Renna Media has added the Long Hill Leader, Green Brook Gazette and Dunellen Express to its family of newspapers. The husband and wife team of Joe and Tina Renna now publish eleven monthly newspapers along with the bi-monthly Around About Peterstown, Elizabeth newspaper.

The publications are "hyper-local" in nature in that they contain information that is focused on the town where they are distributed. The newspapers are mailed for free to residents and businesses, and dropped for free pick-up at distribution points.

The concept of being a hyper-local newspaper

is to give local businesses an inexpensive venue to promote their services. News from the school district and each department of the town's administration is also accommodated.

Community service organizations and sports teams are encouraged to submit news of upcoming events or reports on recent events for publication.

Residents and organizations get a free connection to their hometown readers, a win-win for everyone.

The hyper-local design gives businesses the highest value for their advertising dollars. The

newspapers are designed (black ink on newsprint) to keep the cost of an advertisement to as low as \$50. A discount is also applied for those businesses involved in their local Chamber of Commerce.

Regional businesses can take advantage of one low rate for placement in three or more publications.

Organizations who are interested in submitting content can email Lynn Sjurset at lynn@rennamedia.com. Businesses interested in advertising should call Mollie Helck at 908-858-4012 for information about placing an ad.

Late Season Insect Control, Dormant Oil is a highly refined, light oil blended with emulsifiers to allow them to be mixed with water and spread evenly over plant surfaces. Once applied to trees and shrubs, the oil/water mixture coats the soft bodies and eggs of insect pests. Most insects use their whole bodies to breathe, the oil/water coating basically seals off their pores and suffocates them.
